

NS4-100

4" Conventional Base

NS4-100

NS6-100

6" Conventional Base

NS6-100

Standard Features

Designed for use with all analogue sensors

Available in 4 and 6 inch models

Contains a security locking tab for tamper protection

Operation

The NS4-100 & NS6-100 Series is designed specifically for use with Conventional Models.

The Base is an electronics free 6" base featuring a plastic tamper-lock lug. Each base is equipped with a resistor.

Technical Specifications

Alarm Current: 93mA (136mA @ 33V max.)

SLC Loop Idle Current: 110 μ A

Compatibility Identifier: HB-3
